BIENNIAL REPORT
OF THE
SECRETARY OF STATE
FOR THE
TWO FISCAL YEARS ENDING NOVEMBER 30, 1910

STATE OF NORTH CAROLINA,
DEPARTMENT OF STATE,
RALEIGH, December 1, 1910.

To His Excellency, WILLIAM W. KITCHIN,
Governor.

SIR:—I have the honor to submit herewith to you a report concerning the Department of State for the two years ending November 30, 1910, and to request you to transmit the same to the General Assembly.

PUBLIC LANDS.

Within the last two fiscal years there have been issued from this office 317 grants of public lands, on which account there has been paid to the Treasurer \$9,695.85. These grants were as follows, for the year ending:

	Nov. 30, 1909.	Nov. 30, 1910.
Regular grants	168	128
Cherokee grants	8	3
Road grants	2	..
Shell fish	1	..
Oyster	1	6
	<hr/>	<hr/>
	180	137

In addition to the above amount \$300 was paid into the Treasury by Attorney-General Bickett, proceeds from a compromise judgment of State ex rel. Attorney-General v. W. J. Owen et al.

The Code of 1883, section 2764, fixed the price of public lands at twenty-five (25) cents an acre for amounts less than one hundred (100) acres, and fifty (50) cents an acre for each acre where more than one hundred acres was entered. This law was changed in 1885 (chapter 185) when section 2764 of The Code was amended by striking out the word "twenty-five" wherever it occurred and inserting "twelve and a half" and striking out the word "fifty" wherever it occurred and inserting "fifteen," thus the price was reduced to twelve and a half and fifteen cents an acre. In 1903 (chapter 272) the

entry law was again amended, and a price fixed at not less than fifty cents an acre.

There is much confusion in the State as to what lands are subject to entry and what land belongs to the State Board of Education. Many grantees have subsequently purchased their lands from the State Board of Education to clear their titles and quiet any claim the State Board might have to their lands. To cure this trouble the General Assembly of 1909 passed an act (chapter 447) which repealed section 1733 of the Revisal of 1905, and fixed a price of one dollar and fifty cents (\$1.50) for each acre entered. Section 3 of the act provided "That all lands entered under this act, for which a grant has been obtained at the price of one dollar and fifty cents an acre, shall be free from all claims, title or interest that is now vested in the State of North Carolina or the State Board of Education." This law became effective April 1, 1909. If for any cause the Secretary of State has reason to believe that the State Board of Education has title or claims to land entered, the matter is called to the attention of the Superintendent of Public Instruction, and is handled in such way as seems proper and to the best interest of the State.

The attention of the Secretary of State is occasionally called to the fact that a grant of land contains in reality many more acres than the grantee paid for. This is sometimes due to an erroneous computation of area by the surveyor, but more frequently from an improper or indefinite survey. It does not seem to be the contemplation of the law that the Secretary of State should review the work of the surveyor, and it has never been done. It seems that surveyors should be under bond and their bonds held responsible for any loss occasioned to the State by their errors or incompetency.

The lands granted for the past two years have been generally distributed over the State. Grants were issued for lands in the following counties:

Counties.	Total 1909.	Total 1910.	Total for two years ending Nov. 30, 1910.
Alexander	2	2	4
Alleghany	3	3
Ashe	5	4	9
Beaufort	1	..	1
Bladen	3	1	4
Brunswick	13	5	18
Burke	6	3	9
Caldwell	5	5	10
Camden	2	..	2
Carteret	1	..	1
Catawba	2	2

SECRETARY OF STATE.

7

Counties.	Total 1909.	Total 1910.	Total for two years ending Nov. 30, 1910.
Cherokee	1	..	1
Chowan	1	..	1
Clay	2	1	3
Cleveland	1	..	1
Columbus	6	2	8
Craven	1	1	2
Cumberland	1	3	4
Currituck	1	1	2
Dare	6	7	13
Davidson	1	1
Duplin	1	1
Gaston	2	1	3
Graham	6	16	22
Henderson	1	1	2
Hyde	1	..	1
Jackson	3	7	10
Jones	2	2
Lee	1	..	1
Macon	18	8	26
Madison	1	..	1
McDowell	10	7	17
Mitchell	1	3	4
Montgomery	4	1	5
Moore	2	1	3
New Hanover	1	..	1
Onslow	2	..	2
Pamlico	6	6
Pender	5	..	5
Perquimans	1	1	2
Polk	2	3	5
Rockingham	1	1
Rutherford	5	3	8
Sampson	1	1
Scotland	1	1
Stanly	2	4	6
Surry	4	3	7
Swain	1	2	3
Transylvania	5	3	8
Union	1	..	1
Washington	1	1	2
Watauga	6	5	11
Wilkes	15	9	24
Yancey	10	2	12
Total	169	134	303

In addition to the above there were issued as follows:

Cherokee grants during fiscal year ending Nov. 30, 1909:

For Macon County.....	1
For Graham County.....	3
For Cherokee County.....	4
	—
Total	8

Cherokee grants for fiscal year ending Nov. 30, 1910:

For Cherokee County.....	3
Road grants issued in Jackson County during 1909.....	2

There was one shell fish grant issued under Acts of 1889 during fiscal year ending November 30, 1909. This grant was in Onslow County.

Oyster grants, on account of which money was paid to the Treasurer under the new law, are included in the number in above statement.

LAND GRANTS.

The following is a table of grants issued since 1882:

Number grants issued two years ending December 1, 1882, 1,189; amounts paid Treasurer.....	\$10,912.87
Number grants issued two years ending December 1, 1884, 1,329; amounts paid Treasurer.....	13,186.73
Number grants issued two years ending December 1, 1886, 990; amounts paid Treasurer.....	5,975.69
Number grants issued two years ending December 1, 1888, 893; amounts paid Treasurer.....	9,493.49
Number grants issued two years ending December 1, 1890, 1,453; amounts paid Treasurer.....	15,570.43
Number grants issued two years ending December 1, 1892, 1,358; amounts paid Treasurer.....	16,831.11
Number grants issued two years ending December 1, 1894, 703; amounts paid Treasurer.....	5,200.73
Number grants issued two years ending December 1, 1896, 547; amounts paid Treasurer.....	9,234.46
Number grants issued two years ending December 1, 1898, 599; amounts paid Treasurer.....	6,337.13
Number grants issued two years ending December 1, 1900, 665; amounts paid Treasurer.....	6,384.69
Number grants issued two years ending December 1, 1902, 732; amounts paid Treasurer.....	6,911.88
Number grants issued two years ending December 1, 1904, 789; amounts paid Treasurer.....	11,230.60
Number grants issued two years ending December 1, 1906, 488; amounts paid Treasurer.....	16,551.47

Number grants issued two years ending December 1, 1908, 529; amounts paid Treasurer.....	16,025.49
Number grants issued two years ending December 1, 1910, 317; amounts paid Treasurer.....	9,695.85

GRANTS INDEXED.

The General Assembly of 1909, chapter 505, passed "An act to establish a card-index system for grants, and to rearrange and change the method of filing warrants, plats and surveys in the Secretary of State's office." For this purpose \$1,500 a year for two years was appropriated. This sum has been expended as follows:

	1909.	1910.
W. P. Batchelor	\$800.00	\$1,000.00
Mrs. M. B. Syme.....	120.00	224.32
Mrs. E. H. Winfree.....	80.00	
Miss A. C. Bledsoe.....	250.00	267.67
Miss Sophy M. Grimes.....	100.00	8.00
N. P. Parker	150.00	
	<hr/>	<hr/>
	\$1,500.00	\$1,500.00

The work has been done by Mr. W. P. Batchelor with several lady assistants. It has been tedious, vexatious and much slower than I had anticipated. Searches for many lost and misplaced papers have consumed much time. A detailed report of this work is found in the following letter from Mr. Batchelor:

"With reference to the work of rearranging and filing the papers relating to land grants and preparing a card index to these papers and the records of grants, I beg to report that the work of rearranging and filing the papers has been completed down to and including the year 1795, except as to the lands located in what is now Tennessee. The card index to the records, giving the file number of the papers, has been completed to Granville County, inclusive, except as to Craven County.

"In undertaking this work I was prepared to believe that while it would be slow and laborious it was absolutely necessary. But no one could realize how necessary, how laborious, how tedious it was without actual experience. I have had personal knowledge of the working of the office of the Secretary of State since 1881. During none of that time has it ever been allowed enough of clerical force to carry on its daily work unless at many times within the year the whole force works long hours over time. Up to 1882 the papers on which the old land grants were issued were kept without systematic arrange-

ment in bundles stored in nooks and crevices in the Secretary's office and in a little closet around the corner. On the completion of the Supreme Court building the Secretary of State was given two rooms, and Col. Saunders, the then Secretary of State, braced his already overworked force to the attempt of producing order out of chaos. Finally such of the papers as could be found were arranged by counties and placed in filing boxes. The work was as well done as the circumstances allowed, but was far from perfect.

"In doing this present work I found that during your administration the system had been improved by arranging counties alphabetically and filing the papers by dates. This, while a great improvement, was inadequate, because it afforded no guidance as to where the papers should be returned. Almost every box I have opened presented evidence that the papers in it had been disarranged, and in the papers of almost every county were found papers belonging to other counties. It was this disarrangement which prevented the index for Craven being made in the regular order. For various reasons the papers for that county have been more in research than any of the others. In consequence of this it has required arrangement and rearrangement, and again rearrangement, to bring them to even a semblance of order. The giving of each paper a file number and the arrangement of these file numbers *seriatim* will obviate this difficulty. Persons examining these old papers can see where each belongs, and it will be little trouble to restore each to its proper place. Then, as the file number of each paper is entered on the margin of the record book, the finding of the record of the grant locates the papers on which such grant was issued without the necessity of the rummaging through the whole file, by which so many of these papers have been destroyed, so many others lost, and so many others misplaced. And this destruction, loss and misarrangement of papers has, more than all other causes, made the work tedious and slow. When a paper exists and is filed in its proper place the work of comparing it with the record, filing it and completing the endorsement can be done certainly, easily and quickly. It is the search for lost or misplaced papers which consumes time and gives trouble. I recall, especially, that the unsuccessful search for one paper, the finding of which circumstances made vitally important to the interests of the State, consumed more than a week. This condition will be testified to by the Grant Clerk, who is often called upon to spend many hours in search of a paper which may not exist. When the work now in process is complete any paper in existence can be found within three minutes, and if any paper is lost the fact is shown by a memorandum filed where such paper should be.

"I was very much annoyed and troubled in the beginning of this work to discover the almost entire absence of papers relating to grants issued before 1740. Your explanation that under the Lords Proprietors, and probably for some time after, such papers were most likely sent to the home offices in London, relieved this complication.

"In outlining a system for the work I had a belief that the card index could well wait the completion of the rest of the undertaking. I was soon to find, however, two good reasons for a change of this opinion. The old index had been worked so hard and had responded so well that I had grown to think it infallible. I still regard it as a wonderfully good piece of work, but the cold criticism of comparison with the books, page by page, shows enough of omission and discrepancy to make the new index a pressing necessity. And further, the present index gives no mention of the many papers discovered of which no record has been made. Of these papers there are some thousands, and the index will locate each of them.

"The work done is very nearly half what has to be done; and I can not too earnestly recommend its completion. The State owes to its citizens the duty of so keeping the records of the titles to their homes and farms as that they can be ascertained quickly, certainly and at moderate expense. These records cover the titles to all the lands of the State. The work of arranging them so as to be easy of reference and identification should have begun with the beginning of the records. The fact that it was neglected for more than two hundred years has made it a tedious and expensive labor. Each further day of delay will add to the labor and cost. Even now, while the records are in such condition that, given plenty of time and work they can be identified, many of the papers on which these records are based have been so worn by handling as to be illegible, and many have been lost. As to whether this work shall be continued is a matter for the General Assembly to determine. I will be glad to have a committee examine the work.

"Allow me to say one word of thanks to you for the assistants you selected for me in the work. Certainly no man ever had a corps of more faithful, cheerful, prompt and efficient co-workers than you gave me. If there be any ground to complain of the amount accomplished, the complaint must be against me; for, realizing that perfect accuracy was the first consideration, I did more to restrain than to stimulate their ardor. If any mistake in the work should develop I am responsible. I reviewed all their work, and found so few errors that I am ready to vouch for its accuracy."

SUPREME COURT REPORTS.

During the last two fiscal years there has been paid into the State Treasury from sale of Supreme Court Reports—

For year ending November 30, 1909.....	\$9,106.39
For year ending November 30, 1910.....	8,375.61
<hr/>	
	\$17,482.00

Old reports out of print, or nearly so, have been annotated by Judge Walter Clark, and reprinted as follows: Volumes 5, 6, 7, 8, 15, 30, 31, 32, 33, 34, 37, 38, 39, 45, 88, 90, 91, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 108, 109, 110, 111, 112, 114, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 127, 128, 130, 131, 132, 133, 134, 135, 136.

Many of these volumes should have been reprinted years ago, but the congested condition of the public printing did not permit it. Several years ago of each volume reprinted five hundred copies were published; this number was then increased to seven hundred copies, and now one thousand copies are made. Of the current volumes one thousand copies were printed; this was soon found to be insufficient, and the number was increased to twelve hundred, and recently the number has been increased to sixteen hundred and eighty copies of each volume published. Now, for the first time in many years, a complete set of Supreme Court Reports is obtainable, and reprinting will be discontinued.

The sales of Reports for the past few years have been as follows:

Two years ending December 1, 1882.....	\$3,352.40
Two years ending December 1, 1884.....	4,626.90
Two years ending December 1, 1886.....	3,253.00
Two years ending December 1, 1888.....	3,762.49
Two years ending December 1, 1890.....	4,002.02
Two years ending December 1, 1892.....	2,618.01
Two years ending December 1, 1894.....	621.12
Two years ending December 1, 1896.....	6,026.89
Two years ending December 1, 1898.....	5,759.55
Two years ending December 1, 1900.....	7,692.59
Two years ending December 1, 1902.....	7,026.89
Two years ending December 1, 1904.....	9,842.25
Two years ending December 1, 1906.....	15,034.54
Two years ending December 1, 1908.....	14,661.74
Two years ending December 1, 1910.....	17,482.00

The Reports have been moved from various rooms and warehouses in the city and are now on the fourth floor of the Uzzell building, for which storage place the Secretary of State is now

paying \$20 per month, and on the second floor of the Commercial Printing Company building, for which floor the Secretary of State is now paying \$25 a month.

PERMANENT ROLL OF REGISTERED VOTERS.

The permanent roll of registered voters, as required by the Constitution, Art. VI, sec. 4, and provided for in chapter 550, section 4, Public Laws of 1901, and chapter 178, Public Laws of 1903, is now finished, as the last registrations thereunder were made in 1908. For each county there is a well-bound, substantial book for each of the years 1902, 1904, 1906, and two for 1908—the special and general elections of that year. The names of the counties are on the backs of the books, and the lists are reported by townships alphabetically arranged. There are nearly five hundred of these books, and it is probable that the time will come when the call for information from them will require the arrangement of a full index of the names registered therein. It was intended by the law that these rolls should be consolidated, but no clerical assistance was provided by the General Assembly for this work. The assistance now given is insufficient to do the regular work of the office as promptly as I would wish to have it done.

NEED OF AN ADMINISTRATION BUILDING.

In the report of the Secretary of State two years ago I said:

"For more than a quarter of a century each Secretary of State has called attention to the need of a proper place for the storage of the many thousands of dollars worth of books belonging to the State. The books have been corded in piles in various rooms about the city, and subject to damage and dangers of many kinds. The Laws and Supreme Court Reports are now stored on the fourth floor of the Uzzell building, in a hall 60 x 100 feet, for which the State is paying a rental of \$240 a year. The number of books is annually increasing, and the State should make provisions for properly caring for the same.

"The Board of Public Buildings added the large room on the third floor of the northeast side of the Capitol, formerly occupied by the Insurance Commissioner, to the rooms of the State Department, but this is now more than full of old manuscript journals, laws and valuable documents of many kinds. The Secretary of State now shares that room with the Historical Commission.

"The large room on the southwest side of the third floor of the Capitol was, some years ago, made a part of the offices allotted to the Department of State. This room is filled with official records, maps, manuscripts, priceless documents, old bills and acts of the General Assembly, etc. During sessions of the

General Assembly it is used as an enrolling office. In the old closets of the Capitol there are many thousands of valuable papers that should be properly filed if space permitted.

"There is no space in the Capitol to arrange for the books and documents that are now overflowing every department, and a fireproof Hall of Records should be built to care for the highly perishable property that the State has now on hand. Many manuscripts, papers, books and historical relies would be donated to the State if a proper repository was provided for their safe-keeping."

Conditions are now worse, and we are even more crowded than then. In addition to the Uzzell building I have rented the second floor of the Commercial Printing Company's building for storage purposes, at a cost to the State of \$25 a month. In the cramped surroundings of the various offices the State can not secure as satisfactory and efficient service as would be possible with better facilities and more room, and more up-to-date conveniences. In my opinion it would be to the advantage of our people and an economy for our State to acquire the two blocks bounded by Edenton and Jones, Wilmington and Salisbury streets, and erect thereon a modern, up-to-date, fireproof administration building that would meet the needs of the State for fifty years. These two blocks conjoined would then form a public square 420 x 516 feet, the same width as Union Square, on which the Capitol stands.

CORPORATIONS.

There have been 2,108 certificates for domestic corporations filed in the office of the Secretary of State for the past two years, on which \$45,371.96 as organization, amendment and dissolution taxes have been paid.

The dissolutions have been as follows:

- 265 dissolutions, November 30, 1908, to November 30, 1909
- 364 dissolutions, November 30, 1909, to November 30, 1910

The great increase of dissolutions in 1909 and 1910 is mainly due to an act of the General Assembly of 1909, chapter 730, requiring corporations out of business to legally dissolve, and is also in part due to the corporation tax of the Federal government. Many of these corporations have been out of business for some time, and we have heretofore been unable to prevail upon them to comply with the law and dissolve properly. The following table shows the corporation certificates filed:

For the year ending November 30, 1893.....	21
For the year ending November 30, 1894.....	115
For the year ending November 30, 1895.....	133
For the year ending November 30, 1896.....	151

For the year ending November 30, 1897.....	147
For the year ending November 30, 1898.....	156
For the year ending November 30, 1899.....	207
For the year ending November 30, 1900.....	306
For the year ending November 30, 1901.....	327
For the year ending November 30, 1902.....	395
For the year ending November 30, 1903.....	554
For the year ending November 30, 1904.....	540
For the year ending November 30, 1905.....	697
For the year ending November 30, 1906.....	821
For the year ending November 30, 1907.....	839
For the year ending November 30, 1908.....	763
For the year ending November 30, 1909.....	1050
For the year ending November 30, 1910.....	1058

The present method of collecting the various taxes and statistics required by law from the corporations of the State is confusing and burdensome to the corporations, and requires fully twice as much clerical labor in the various departments as is necessary. Reports for obtaining the amount of excess tax due by corporations are made to the Corporation Commission. That body, after making out a statement of the amount due, certifies a list thereof to the State Auditor, who notifies the corporations of the amount and asks a remittance to the State Treasurer, who is required to collect such tax and also a franchise tax from the same corporations, to which he sends blanks for that purpose. In addition the Secretary of State is required to cause each corporation to file in his office a statement giving amount of capital stock authorized, the amount issued and the names and addresses of the officers and directors.

All these reports, statements and calls for taxes of different kinds should be covered by one report to be filed in one office, and all taxes should be paid into that office. This plan would relieve the corporations of the necessity of making reports to all these officers, and at the same time save a considerable amount of money to the State in the way of postage and clerical work. The work necessary in any one of these departments to handle all these matters would not be considerably greater than it is at present, when handling only one kind of tax or one kind of report or statement. The corporations of the State will some day insist upon the modernizing of present cumbrous and vexatious methods, and ask that their reports be simplified and consolidated. In addition to reports to the State, Federal reports and taxes are now required.

Another matter to which the attention of the General Assembly might be called is the present inadequate law for the incorporation and management of trust companies. The banking law has been so amended by a recent, but very imperfect act,

that they may be established in connection with banks, but there is no law by which a trust company can be incorporated independently. A modern, conservative law which will encourage the organization of such corporations and, at the same time, safeguard the interests of the public by proper State supervision, should be enacted.

TRADE-MARKS.

For the two years ending November 30, 1910, twenty-nine trade-marks have been registered. A list of these will be appended to this report.

For the year ending November 30, 1909.....	19
For the year ending November 30, 1910.....	10
<hr/>	

29

BANKS.

Under chapter 7, Revisal of 1905, sixty-two banks have been incorporated, a list of which appears elsewhere in this report.

For the year ending November 30, 1909.....	26
For the year ending November 30, 1910.....	36
<hr/>	

62

RAILROADS.

The following seventeen railroad companies have filed certificates in this office according to chapter 61 of the Revisal of 1905:

For the year ending November 30, 1909:

Sanford and Glendon Railroad Company.

Piedmont Railway Company. Reorganization. (Name changed from Carolina Valley Railroad Company.)

Northampton and Hertford Railway Company. Reorganization.

Sanford and Glendon Railroad Company. Amendment.

Ashe County Railroad Company.

Carthage and Pinehurst Railroad Company. Amendment.

For the year ending November 30, 1910:

Lumberton and Elizabethtown Railroad Company.

North and South Carolina Railway Company.

Jackson Railroad Company.

Black Mountain Railway Company.

Rockingham Railroad Company.

Hemlock Railroad Company.

Roanoke Railway Company.

Mica Belt Railway Company.

North Carolina-Virginia Railway Company.

Madison County Railway Company.

Micaville Southern Railway.

FOREIGN CORPORATIONS.

Under section 1194, chapter 21, of the Revisal of 1905, 84 foreign corporations filed statements and copies of charters, and paid entrance taxes for two years ending November 30, 1910:

For year ending November 30, 1909.....	33
For year ending November 30, 1910.....	51
	—

84

AUTOMOBILES.

The General Assembly of 1909 enacted chapter 445, "An act to provide for the registration and identification of motor vehicles, and to regulate the use of public highways by such vehicles and persons passing such vehicles, and to provide penalties for the violation thereof." Under this law 2,018 automobiles have been registered, and on this account, and on account of renewals and transfers, \$11,900.10 has been paid into the State Treasury. The chief purpose of this act was an attempt to abate the nuisance of dangerous and reckless driving by vicious or inconsiderate motormen. From many sources information comes of the nonperformance of duty by officers of the law, and there is much complaint at the heedless fast driving by unknown or irresponsible people. The law should be made stronger, penalties should be more severe, and the law officers should be more alert. There should be a personal and criminal liability for accidents caused by indifferent or heedless driving or speeding in violation of the law. This would be welcomed by law-abiding owners of automobiles, and is a protection that the public is entitled to.

SIDE-NOTING AND INDEXING.

In reference to side-noting and indexing, I beg leave to quote from my report two years ago:

"Section 2733 of the Revisal of 1905 requires an assistant of the Secretary of State to index the laws and prepare the laws and captions for publication, and provides for the payment of \$500 for this work. This is insufficient pay for the work to be done. The laws are more than twice the volume that they were a few years ago, and the pay is less. The following table will illustrate:

Year.	Amount Paid.	No. of Pages Public and Private Laws.
1891	\$610	1,509
1893	600	1,146
1895	600	1,185
1897	400	1,239
1899	400	2,109
1901	400	2,204
1903	500	2,190
1905	500	2,238
1907	500	2,895

"The captions, from being a small pamphlet, has grown into a considerable volume of nearly 400 pages, and under the caption of each act a full synopsis of it is given. With the greatly increased number of laws passed, and the largely increased bulk of the captions, it has been found necessary to index the captions. The side-noting is also a very considerable work, requiring much time and considerable skill.

"Almost half of the laws are passed at the close of the session, requiring much rush and night work; and in the closing weeks the Committee on Enrolled Bills can not leave their duties in the House to examine and correct the enrolled bills with the care that should be given them; so, notwithstanding the fact that there are competent proof-readers in the Enrolling Office in the closing weeks of the General Assembly, many errors creep into the ratified copies.

"I recommend that the pay of this assistant be increased from \$500 to \$750, and that it also be made a part of his duties to carefully read, edit and prepare for the printer each act passed. This would insure much greater accuracy in the laws and would be an economy to the State. The work of preparing captions, making a synopsis of and indexing the same, and side-noting and indexing the laws, is now being done for less than it is worth."

ENROLLMENT OF BILLS.

In reference to the enrollment of bills I will quote from my report in 1908:

"The present method of the enrollment of bills is a great improvement over the old system. They are now typewritten and a carbon copy made at the same time for the printers. These typewritten copies are bound in volumes, which are much handier than the old bulky volumes of handwritten bills. In my last report (December, 1906) I called attention to the fact that more than half the bills passed in 1905 were sent to the Enrolling Office in the last ten days of the session. This included many of the longest and most important bills, which caused an undue rush, much all night work, and prevented to some extent the pains taking time that should have been given these bills to insure their accuracy. In 1907 this congestion at the close of the session was even more marked than in 1905. At that session the General Assembly passed 1,535 acts; 1,245, or over 80 per cent of these, were ratified during the last twenty days of the session; 901 of them in the last ten days, and 237 on the last day. In such rush work it is almost impossible to have it properly done.

"The Committee on Enrolled Bills can not devote time to examining such a congested mass of bills without neglecting their duties on the floor of the General Assembly, and find it a physi-

cal impossibility to read over these laws in the limited time they have. This congestion caused much crude legislation and many inaccuracies. This should be avoided.

"The Secretary of State should be authorized to have a clerk or assistant carefully proof read a second time every act passed by the General Assembly, and prepare a correct copy for the printer, making such purely clerical corrections as do not change the law. This would be to the interest of the State and greatly facilitate the printing of the laws."

"I will here take the liberty to repeat a recommendation made two years ago (1906), and will quote directly from my last report:

"All bills should be printed daily as introduced, but this seems impracticable for want of adequate printing facilities. However, all important bills should be printed in large type, triple-spaced, with wide margins for notes and amendments. In amending, reference should be made to the words before and after the place where insertion is to be made, and especially is this true of supplemental acts. In engrossing a bill the numbers and relative positions of the lines are changed; again the lines are changed in enrolling, and again changed in printing; so reference to the number of line is meaningless, and often leads to confusion and errors.

"As the handwriting of the members is not always so clear and legible as to prevent misreading, all bills should be typewritten when introduced—the public bills at State expense and private bills at cost of interested parties.

"Typewritten bills and resolutions passing without amendment should be enrolled without being engrossed, as such a course will save the State considerable unnecessary expense. This was done to a large extent last session, but it should become the invariable rule.

"As I said in my last report, if the Engrossing Departments of the House and Senate were combined and made into one department, and the copying therein done with typewriters, it would be in the interest of accuracy and economy. The Chief Engrossing Clerk and assistants could be appointed by the Speaker of the House and President of the Senate."

"The Journals should be printed daily and a copy placed on the desks of the members of the Legislature every morning. The State Printers inform me that they are now sufficiently equipped to meet this requirement."

LAWS AND DOCUMENTS.

Heretofore more copies of the Public Laws have been printed than were necessary, as the number of justices of the peace have been very much reduced. This has caused an accumulation of

old laws. The number printed should be very materially reduced.

It may be advisable to make some change as to the publication of public documents as the present method was adopted when the number and volume of reports was small, and not the bulky, voluminous documents we now have.

The General Assembly of 1909 provided that hereafter the laws shall be divided into three classes—"public, public local, and private laws." The laws of 1909, public and private, embraced 2,391 pages. Only 262 pages of these were strictly public. This change will save several thousand dollars in the cost of printing alone. It is probably safe to say that two-thirds of the laws enacted by the General Assembly relate to matters which the attention of the Legislature should not be distracted with, and much valuable time is consumed that should be devoted to important public questions. These private acts should be governed by general laws, and most of the legislation now demanding the time of the General Assembly could be passed upon, as in some of the other States, by departments authorized to attend to such matters, or by the Clerks of the Superior Court, County Commissioners or some local authority, safeguarded by a referendum. Besides the time of the General Assembly, many, many thousands of dollars would be saved to this State.

In the General Assembly of 1909, as incredible as it may seem, the records show that more than 66 per cent of the laws of the session were enrolled and ratified in the last ten days of the session. This was an injustice to the State and a menace to safe legislation. Many of these bills were never read by committeemen. It was an impossibility for the members of the Committee on Enrolled Bills to read them, even if they had entirely abandoned or resigned their seats in the General Assembly and given their time up to this work. It seems imperative that some plan should be devised to correct this congestion at the close of the sessions.

Of the 1,319 laws, comprising 2,391 pages, enacted by the General Assembly of 1909, 174 were strictly public laws, making 262 pages of necessary legislation that perhaps could not be attended to except by legislative enactment. Of the laws passed

14 were relative to local courts.

26 referred to the number and pay of county commissioners.

22 to jurors drawing pay.

28 appointing justices of the peace, additional to the omnibus justice of the peace bill and to those elected by the people.

8 to primaries.

9 to prohibition.

94 to roads.

11 to stock laws.

- 7 to automobile laws.
- 9 to court stenographers.
- 27 arrears of taxes.
- 6 to deer.
- 7 to hunting.
- 79 to game laws.
- 29 to fishing.
- 11 to drainage.
- 120 laws referring to graded schools, school districts, teachers, etc.

- 4 to depredations of domestic fowls.
- 26 to corporations.
- 8 to banks.
- 27 to railroads.

122 to cities and towns (embracing 548 pages).

Besides many acts, such as leaves of absence for clerks of the court, providing for appointment of cotton weighers, giving police powers, etc.

The Constitution should be amended so as to require more than three-fourths of our legislation to be done under general laws. The Recorder's or local courts might be established when needed by joint action of County Commissioners and justices of the peace, with a referendum to the voters.

The pay of jurors, County Treasurers, the pay and number of County Commissioners, standard keepers, cotton weighers, etc., should be provided for under general laws.

A general road law presenting alternative systems, all under control of a State highway engineer, and allowing County Commissioners and magistrates to put in operation such system as best suited their counties, subject to a referendum to their voters, should be adopted. Police powers, game laws, stock laws and such matters should be under general laws giving powers to local authorities upon the vote of the people.

Drainage should be provided for under general laws. It would somewhat restrain the flood of private laws passed at the close of the session if the mandate of the Constitution (Article II, section 12) was enforced, requiring that the thirty days' notice of application to pass such a law shall have been given.

"The Constitution now provides (Article VIII, section 1) that corporations shall not be created by special act, except in cases where in the judgment of the Legislature the object of the corporation can not be attained under general laws." This inhibition is frequently overlooked, and many charters are granted which should be created under the general law.

The chartering of corporations with special privileges is contrary to the spirit of our Constitution, and should be jealously watched by the General Assembly. The present North Carolina

Corporation Laws are extremely liberal, and every reasonable power and privilege can be obtained under them. Municipal corporations should not be created by special laws, but the Legislature, by general laws, should provide for the incorporation and organization of cities and towns and the classification of same in proportion to population. This is the case in many States of the Union, and works for uniformity and the best interests of the people.

LEGISLATIVE REFERENCE LIBRARIAN.

* Pigeon-holed and inaccessible in rooms and closets of the Capitol are the bills and resolutions introduced into the General Assembly, and reports and petitions to that body since our earliest history. Many of these bills became laws and many failed to pass. All should be chronologically arranged and indexed as they shed much light on public questions and give much information as to the legislative history of the State. These scattered papers are known as "The Document Library," and are in the custody of the State Librarian, who is Legislative Document Librarian. The State Librarian now has more duties than he can properly attend to, and his work is growing every year.

A Legislative Reference Librarian would be a most useful and economical officer to the State. It could be made his duty to collect, tabulate and annotate information for the use of members and committees of the General Assembly upon all questions of legislation coming before that body. He should make references and analytical comparisons of legislation upon similar questions in other States, and have at hand the laws of other States, papers, magazine articles and discussions of the question, both pro and con. Such indexing, tabulation and general information would be invaluable to the busy legislator. It could be made this officer's duty to edit all laws for the State Printer, annotating the laws as passed and keeping the Revisal of 1905 revised to date. He should also assist in the preparation of bills for current legislation, thereby avoiding much duplication and much unnecessary printing.

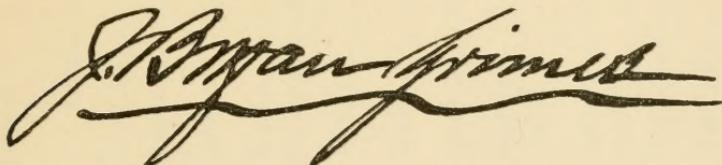

PAYMENTS TO TREASURER.

	1909.	1910.
Automobiles	\$5,530.00	\$6,370.10
Corporations (organization tax)	24,514.00	20,857.96

Land grants	5,708.45	3,987.40
	\$55,058.15	\$49,393.65

NOTE—The amounts of money received by this department (except for entries of vacant lands) are paid to the Treasurer on the first of the month following the month in which they are collected, and so appear in his accounts. For instance, money received by the Secretary of State for November, and entered in the November accounts of this office, appears in the December accounts of the Treasurer, and so for the other months of the year.

My assistants in the regular work of the office for the past two years have been Messrs. George W. Norwood, W. S. Wilson, J. E. Sawyer and Miss Minnie Bagwell. I wish to publicly thank them for their high efficiency and loyal help.

Secretary of State.

CORPORATION CERTIFICATES FILED IN OFFICE OF SECRETARY OF STATE UNDER CHAPTER 21 OF THE REVISAL OF 1905,
FROM DECEMBER 1, 1909, TO NOVEMBER 30, 1910.
